Simplex. Because simple can be smart too.

Simple as 1.2.3.

Access combinations comprise any combination of up to five numbers, pressed individually or simultaneously. Simplex locks allow thousands of possible access combination combinations, and combinations are changed out quickly and easily without removing the lock from the door. Simplex locks eliminate recurring expenses that are associated with the management of keys and cards and are perfect standalone applications.

Simple options to solve everyday problems

Simplex mechanical pushbutton locks are available in cylindrical, mortise, tubular latch and deadbolt, exit trim locking devices and cabinet locks. Locks install easily on metal doors, wood doors, cabinet doors or desk drawers with no wires.
