## TERMS AND CONDITIONS OF SALE

Acceptance. The following Terms and Conditions of sale are applicable to all Quotations, Contract, Purchase Orders, Order Acknowledgement Forms, and sales of Seller's services and products, and are the only applicable terms and conditions thereto, except for terms establishing prices, quantities, delivery schedules, terms of payment, invoicing, shipping instructions, and the identification of the products associated with each transaction. If any conflict exists between the Terms and Conditions and a Quotation, Purchase Order, Order Acknowledgement form, or sale, these Terms and Conditions shall prevail BY REQUESTING A QUOTATION OF ORDERING ANY PRODUCTS OR SERVICES FROM SELLER, BUYER AGREES TO ALL THE FOLLOWING TERMS AND CONDITIONS. If a written contract signed by both parties is in existence covering the sale of the goods and services, the terms and conditions of the contract shall control to the extent they are inconsistent with these Terms and Conditions.

1. Order Procedure. Buyer may or may not request the preparation of a Quotation prior to ordering any products or services from Seller. Buyer then shall place a Purchase Order with Seller. By placing a Purchase Order, Buyer makes an offer to purchase products or services from Seller pursuant to these Terms and Conditions. Seller, in its discretion, may accept or reject the Purchase Order. If Seller accepts the Purchase Order, Seller shall issue an Order Acknowledgement Form confirming Buyer's order. No Purchase Order is binding on Seller unless accepted by Seller as provided in these Terms and Conditions.

2. Quotations. All Quotations by Seller are subject to change or withdrawal without prior notice to Buyer unless otherwise specifically stated in the Quotation. All resulting Purchase Orders become effective only if and when approved and accepted in writing by Seller by the issuance of its Order Acknowledgement Form. Seller reserves the right to discontinue manufacture of any products or change products materials, design, or specifications without notice.

3. Site Requirements.

a. The Quotation is contingent upon all work being performed during normal business hours unless otherwise negotiated and a mutually agreeable schedule. The Quotation is calculated on one continuous installation engagement based on acceptable site conditions where other dependent scopes have completed preparation for proposed materials (i.e. electrical work, floor work, adjacent construction). When Buyer has given authorization for work to begin, no other scopes may impede Seller's ability to complete installation in agreed upon area. Seller reserves the right to invoice for costs that are incurred due to unacceptable site conditions or delays by others resulting in additional installation visits.

b. Signed acceptance by Buyer of shop drawings and/or submittals shall be interpreted as acceptance that proposed scope is the correct interpretation of construction documents. Any field verification and/or work required by others as detailed in the submittal will be provided and coordinated by Buyer. Work shall not begin nor shall orders be placed for any projects until all shop drawings and submittals have been approved in writing by Buyer.

4. Warranty. For a period of twelve (12) months from the date of delivery, Seller warrants only that all products sold pursuant to a Quotation or Purchase Order will conform to the description in this Price Book and will be free from defects in workmanship and materials. Extended warranties are available for an additional cost. Seller is not responsible for defects or damages caused by wear and tear, consumable materials, vandalism, fires, storms, floods, acts of God, misuse, abuse or alteration by any company other than Seller. Seller further warrants that Buyer will receive good and valid title to the products. Any claim on account of nonconforming or defective products or for any other cause whatsoever shall conclusively be deemed waived by Buyer unless written notice thereof is given to Seller promptly after discovery but no later than sixty (60) days from date of shipment. Seller shall have the right either to replace or repair any nonconforming or defective products, to refund the purchase price upon return of the products, or to grant a reasonable allowance on account of such nonconformance or defect Seller's liability and Buyer's exclusive remedy for nonconforming or defective products shall be limited solely to replacement, repair, refund, or allowance as Seller may elect. Seller shall be given reasonable opportunity to investigate all claims and no materials shall be returned to Seller until after inspection and approval by Seller and receipt by Buyer of written shipping instructions from Seller. Buyer acknowledges and agrees that the remedies set forth in this paragraph are Buyer's exclusive remedies for the delivery of nonconforming or defective products.

Additional Warranties

a) No credit will be provided for any work completed by others during warranty term.  
b) Warranty work will be performed during normal business hours with our standard response times. Any warranty work taking place beyond normal business hours or with expedited response time may be billable.

c) Products repaired or replaced under the warranty are warranted only through the remainder of the original warranty period.

Disclaimer of Further Warranties. Except as set forth above, there is no warranty, representation, or condition of any kind, express or implied (including no warranty of merchantability or fitness of the products for any use contemplated by Buyer) concerning Seller's products or services and none shall be implied by law.

5. Limitation of Liability and Remedies. Seller shall not be liable, and Buyer waives all claims against Seller for any incidental, consequential, or special damages, including without limitation, lost revenues and profits even if Seller has been advised of the

possibility of such damages. Buyer's exclusive remedy for any cause of action under these Terms and Conditions is a claim for damages and in no event will damages or any other recovery of any kind against Seller exceed the purchase price of the specific products or services as to which the claim is made. Seller will not be liable to Buyer for any loss, damage, or injury to persons or property resulting from the handling, storage, transportation, resale, or use of the products in manufacturing processes, or in combination with other substances, or otherwise.

6. Intellectual Property Indemnification. (a) Seller agrees to defend, indemnify and hold Buyer harmless against any claims, costs, damages, liability and expenses resulting from actual or alleged patent, trademark, or copyright infringement, misappropriation of confidential information, or violation of any other intellectual property right, domestic or foreign, in the selling or use of any part or product that is owned by Seller and that pertains to the subject matter of a Quotation, Purchase Order, or sale of products or services (provided that the product is not modified in anyway by Buyer or any other party, and that the product is used in the manner intended by Seller). If a suit or claim results in any injunction or any other order that would prevent Seller from supplying any product falling under a Quotation, Purchase Order, or sale, or if the result of such a suit or claim would, in the reasonable opinion of Seller, otherwise cause Seller to be unable to supply such products, Seller shall have the right, at its option, if it so chooses, to do one or more of the following: (i) secure an appropriate license to permit Seller to continue supplying the products to Buyer; (ii) modify the relevant product so that it becomes non-infringing, provided that any modification does not cause any material change to the operation or performance of the product; or (iii) replace the relevant product with a non-infringing but practically equivalent product. (b) Buyer agrees to defend, indemnify, and hold Seller harmless against any claims, costs, damages, liability and expenses resulting from actual or alleged patent, trademark, or copyright infringement, misappropriation of confidential information, or violation of any other intellectual property right, domestic or foreign, in the making, using or selling of any product or using any process that is owned by Buyer or is designed or specified by Buyer and that pertains to the subject matter of a Quotation, Purchase Order, or sale.

7. Ownership of Inventions. All drawings, know-how, designs, confidential information, and the like disclosed to Buyer by Seller and all rights therein will remain the property of Seller. Buyer shall have no claim to, ownership interest in, no license to, or no rights to any information provided or communicated by Seller.

8. Lead Times. If applicable, lead times are based on standard requirements by factory to provide materials proposed. Ship dates will be provided as estimate only once order is placed with the factory. Adequate packaging will be provided for any normal shipping circumstance such that materials will be protected and labeled as required. Special packaging may be provided for an additional expense. Shipping will be cost effective unless expedited fees are accepted by Buyer. If materials are to be provided to job site or Buyer location, dormakaba will make an informed decision as to the best instruction to provide the shipping company. If materials are not required to have direct delivery, materials will be brought to branch for pickup by Buyer. All freight terms shall be FOB. Any claims for damage in transit or lost freight, receiving, and inspection of materials is the responsibility of Buyer. It is a requirement of Buyer to inspect and review all materials prior to accepting shipment.

9. Title/Risk of Loss. All products shall be shipped FOB Seller's manufacturing facility to Buyer's designated delivery location. Unless otherwise agreed by the parties, Seller shall select the method of and carrier for the products. Seller reserves the right to ship items in a single or in multiple shipments. Title and risk of loss to products ordered passes to Buyer upon delivery of the products to the freight carrier. Unless mutually agreed upon in writing, shipping dates are approximate and are based upon prompt receipt of all necessary information.

10. Prices. Quoted price is valid for 90 days. Seller reserve the right to revise quotations after the 90 days. All accepted Purchase Orders are subject to Seller's price in effect at time of shipment. Buyer shall be responsible for any increase in freight rates or transportation charges occurring after Seller prepared the Order Acknowledgment Form on the Order Acknowledgment Form. Buyer shall pay to Seller in addition to the purchase price the amount of all fees, duties, licenses, and all sales, use, privilege, occupation, excise, or other taxes, federal, state, local, or foreign which Seller is required to pay or collect in connection with products or services sold to Buyer.

11. Payments. Unless otherwise agreed in writing between the parties, all Seller's invoices are payable within thirty (30) days of their date. Time is of the essence. Interest on past due amounts will be assessed at the rate of 1.5% per month (18% per annum), or the maximum allowable by law. Seller reserves the right to full payment upon completion of work unless credit is pre-established. For any work requiring materials purchase or scheduling, a 50% deposit is due at time of proposal acceptance. Twenty percent (20%) of the Quotation, Purchase Order value may be billed after job award. Joint check agreements may be requested at the discretion of Seller. If payment is outstanding for any one account, work may be stopped and outstanding orders cancelled until account is restored. Should Seller require the use of collection, attorney's fees, or fees for insufficient funds, Buyer agrees that these funds will be repaid to Seller. Seller retains the right to file a lien against all or part of the property being improved. Seller reserves the right to add a 2.5% charge if invoice becomes delinquent beyond terms.

Certificate of insurance for stored materials can be provided to Buyer upon request. 14. Insolvency. Seller may, at any time or times, suspend performance of any order or require payment in cash, security, or other adequate assurance satisfactory to Seller when, in Seller's opinion, the financial condition of Buyer or other grounds for insecurity, including the filing of a petition for bankruptcy, warrant such action.

## BEST MASTERKEY CODE AND MASTERKEY SERVICE POLICY

### I. DISTRIBUTOR MASTERKEY SERVICES

All dormakaba USA Inc. ("dormakaba USA") Authorized Distributors, Aftermarket Wholesalers, and Locksmiths ("Authorized Distributors") can create, modify or extend masterkey codes for the benefit of their end user customers ("End Users") for Best non-patented masterkey systems; provided, however, the services must be performed in line with industry standards. With the express written permission of dormakaba USA, select Authorized Distributors can create, modify or extend masterkey codes for the benefit of End Users for a Best Patented Masterkey System (pursuant to the terms and conditions of Section C below). Authorized Distributor's failure to comply with the terms of this policy could result in dormakaba USA's termination of its Distributor Agreement as well as dormakaba USA's pursuit of any remedies available at law.

#### A. END USER INFORMATION AND CODE RELEASE:

All masterkey codes (both patented and non-patented) previously generated by dormakaba USA are available for distribution to End Users (and/or their designated Authorized Distributor, if applicable) via the End User Web Portal at <http://masterkeycodeportal.bestaccess.com/Login.aspx>. For a hard copy of the End User Information and Code Release Form, please contact your dormakaba USA End User Consultant. End user codes will be distributed solely to those Authorized Distributors (a) identified by the End User on a fully executed End User Information and Code Release Form received by Best, and (b) for the release of Best Patented Masterkey Codes, the Authorized Distributor is authorized by dormakaba USA to receive and process Best Patented Masterkey Codes (as more fully described in Section C below.) No exceptions will be made to this policy.

#### B. BEST NON-PATENTED MASTERKEY SYSTEM

As of September 4, 2012, dormakaba USA no longer requires a Security Authorization Form to be signed by the End User prior to dormakaba USA and/or its Authorized Distributor accepting core and key orders for non-patented keying systems. All valid End User communications for orders related to non-patented keying systems will be fulfilled at the End User's liability.

#### C. BEST PATENTED MASTERKEY SYSTEM

The Best Patented Masterkey System provides a higher level of protection against unauthorized key duplication and crossovers and, in order to maintain the quality of a Best Patented Masterkey System, the following terms and conditions of this policy shall apply to any and all Authorized Distributors with access to Best Patented Masterkey Systems. For the purpose of this policy, "Best Patented Product" shall mean the Best Cormax (including cores and keys), as well as any and all future product dormakaba USA designates as patented product for the purpose of this policy. "Best Patented Masterkey Systems" and "Best Patented Masterkey Codes" shall mean the respective masterkey system or codes of any Best Patented Masterkey Product.

**Sale of Best Patented Product:** As further described in this Section C, only those Authorized Distributors meeting certain necessary qualifications and standards shall be selected by dormakaba USA to sell Best Patented Product. Selection shall be

at the sole discretion of dormakaba USA and shall be evidenced in writing via the Distributor Agreement or its select addendums.

**Best Patented Security Authorization Form:** It is a responsibility of the Authorized Distributor to ensure that Best Patented Product does not end up in the possession of unauthorized individuals or entities. The Authorized Distributor must ensure that the End User completes a Best Patented Masterkey System Security Authorization Form (the "Security Authorization Form") as outlined in this Section C. The Security Authorization Form designates those individuals within the End User's organization that are authorized to place orders with the Authorized Distributor for Best Patented Product. The Security Authorization Form must be completed and signed by the End User.

It is the Authorized Distributor's full responsibility to validate the End User's signature as identified on the Security Authorization Form prior to accepting any orders for Best Patented Product.

In certain circumstances the Authorized Distributor selling the Best Patented Product will not contract directly with the End User. In these circumstances, the Authorized Distributor is required to work with its reseller to ultimately ensure that the End User submits a signed Security Authorization Form to dormakaba USA.

dormakaba USA shall have the right to audit all Security Authorization Forms maintained by the Authorized Distributors for completeness, accuracy and compliance with this Policy.

**Sale of Combined Best Patented Product through Distributor:** dormakaba USA may authorize select Authorized Distributor to purchase and resell to an End User Best Patented Product that has been combined by dormakaba USA Personnel. In this instance, a Security Authorization Form must be completed and signed by the End User and provided by the Authorized Distributor to dormakaba USA with each Best Patented Product order.

**Stocking of Best Patented Product:** dormakaba USA may authorize select Authorized Distributors to purchase and stock Best Patented Product and have access to Best Patented Masterkey Codes by entering into a Best Patented Masterkey System Distributor Agreement Addendum (the "Authorized Stocking Distributor") As a condition to the Authorized Stocking Distributor's continued access to Best Patented Masterkey Codes, it must comply at all times with the Best Patented Key Systems Security Procedure. In addition, it is the responsibility of the Authorized Stocking Distributor to ensure that they have a completed Security Authorization Form on file for each End User that places an order with the Authorized Stocking Distributor for Best Patented product and that the Authorized Stocking Distributor authenticates the signature of each Best Patented Product order utilizing the Security Authorization Form.

QED100 Series | Grade 1 | Heavy Duty Exit Devices

## ELECTRIFIED OPTIONS (CONSULT FACTORY FOR LEAD TIMES)

QED 100 Series

Model #	Description	List Price Adder
QED__LR	Electrified Latch Retraction (LR) allows for the remote unlatching of exit devices. Continuous duty solenoids retract latches momentarily or for extended periods of time. Requires the use of power supply 8Q00312 or 8Q00313.	1,005.00
QED__ED	Electrified Dogging (ED) allows continuous latch retraction and dogging simultaneously. ED requires first time mechanical activation after which the push bar will continuously hold the push bar and latch retracted. When power is removed or interrupted from the device, the latch bolt will extend and push bar will release. Uses power supply 8Q00314 (on page 50)	867.00
QED __X	Request to Exit (X) is an SPDT (Single Pole Double Throw) switch which monitors the push bar of the exit device. The X switch can be used to activate a door alarm, control a magnetic locking device, shunt a door alarm or signal a control console when the push bar is depressed.	323.00
QED__LRX	Electrified Latch Retraction (LR) device with a Request to Exit (X) switch. Requires the use of power supply 8Q00312 or 8Q00313.	1,248.00
QED__EDX	Electrified Dogging (ED) device with a Request to Exit (X) switch. Uses power supply 8Q00314 (on page 50)	1,112.00
