

**Grade 2 Mechanical Locksets
Stand Out with STANLEY**

INTERCONNECT LOCK
Shown in Satin Nickel with TEMPO Lever

**Attracting and retaining reliable tenants
is a top priority for every property owner.**

Solidify your standing as a secure property with the STANLEY QGI200 Series Interconnect Locks. These ANSI/BHMA Grade 2 locks—constructed with top-quality materials and enhanced security functions—are ideal for multifamily and mixed-use properties. Providing single motion egress for standard duty applications, the QGI200 Series delivers the quality and durability you need.

With a complete line of interior and exterior solutions—Grade 1 and 2 deadbolts, Grade 2 levers, access control solutions, exit devices, door closers, hinges and electronic deadbolts—STANLEY has everything you need for an opening in a multifamily or mixed-use facility.

STANLEY—it's the only name you need to remember. **Simply STANLEY.**

Innovative Features

EasyPass™
Whether hands are arthritic, full of groceries or holding a young child, you can open the door much easier with EasyPass. This uniquely smart feature allows the door to open with less rotation of the lever. Not only is it more convenient, but EasyPass has greater durability as well.

Stylized Levers
All STANLEY locksets come with the option of adding a stylized lever for that extra touch. Stylized levers are an easy and effective way to make an architectural statement—right at the point of entry.

Easy Installation
Compartmentalized packaging and tapered deadbolt latches make installation simple, even on warped doors.
